

TRUCK & TRAILER EQUIPMENT

Splash Guards/Mudflaps & Accessories

Custom imprinting available in multiple colors.

Ethylene vinyl acetate, rubber and olefins blended to give a flexible and chemical resistant flap good for the long haul. Guard King Flaps are guaranteed not to crack or permanently curl for 2 years with a recommended service temperature of -40 F to +150 F. Reinforcing ribs and numerous protruding elements keep the Guard King in place and reduces road spray. James King brand.
